

Muhammad Muneeb Iqbal

Full Stack Developer (Express | Node.js | MERN)

+92 3095075940 ◇ muneebiq24@gmail.com ◇ Wah Cantonment, Pakistan ◇ [LinkedIn](#) ◇ [Resume](#)

SUMMARY

Computer Science graduate with a strong foundation in MERN Stack, complemented by proficiency in Flutter. Skilled in building full-stack and cross-platform applications through academic and project-based work. While my core focus is development, my background in **Business Support** roles has strengthened my problem-solving, organization, and data management skills, enabling me to approach software challenges with a practical, detail-oriented mindset.

TECHNICAL SKILLS

Backend Node.js, Express.js, WebSockets, Real-time architecture, MVC, RESTful API design

Databases MongoDB, Firebase, MySQL, Database Design & Optimization

Frontend React.js, JavaScript, Responsive Design, CSS3, Flutter

Tools & Platforms Git, Postman, Vercel, Render, MongoDB Atlas

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Jun '23 — Nov '23

O2 Geeks

Islamabad, Pakistan

- Developed and maintained full-stack web applications using modern frontend and backend technologies, contributing to responsive user interfaces, RESTful APIs, and database integration.
- Optimized application performance and resolved bugs to improve system reliability and user experience.
- Participated in the complete software development lifecycle, including requirement analysis, version control, testing, deployment, and documentation within an agile development environment.

Business Support System Specialist

Jun '24 — Present

Mighty Dog Roofing of North Atlanta

North Atlanta, United States (Remote)

- Managed finances with QuickBooks, AccuLynx, and Roofr.
- Supported project teams with budgeting and resource allocation.

Business Support System Specialist

Dec '24 — Jan '25

Advanced Contractors

Wichita, United States (Remote)

- Ensured accurate record-keeping and compliance with financial standards.
- Supported project teams by tracking expenses and managing budgets.

Business Support Specialist

Jul '24 — Oct '24

Mighty Dog Roofing of Wichita

Wichita, United States (Remote)

- Conducted financial audits and cost estimations for projects.
- Streamlined administrative processes to improve efficiency.

PROJECTS

AroundYou - Real-Time Messaging & Voice MERN Application [Link](#)

Dec '25 — Apr '26

- Designed and built a scalable Node.js/Express backend handling real-time events, user sessions, and chat room management.
- Implemented bidirectional WebSocket communication for low-latency real-time messaging and peer-to-peer audio calling via WebRTC.
- Architected RESTful APIs for authentication, user management, and data persistence with MongoDB.
- Built React frontend to consume backend APIs and display real-time updates.
- Optimized database queries and implemented efficient session management for high-throughput real-time operations.
- Deployed full-stack application on Vercel (frontend) and Render (backend) with a custom domain, maintaining production uptime for real users.

Smart Finance - AI Powered Finance Platform

Feb '25 — Dec '25

- Developed secure expense tracking system with categorized budgeting, authentication, and transaction history.
- Implemented ML-driven expense forecasting using LSTM and ARIMA models.
- Delivered data-driven visual analytics with actionable spending insights and goal-based savings recommendations.

EDUCATION

Bachelor's in Computer Science, COMSATS University Islamabad

Feb '22 — Jan '26

- Gained comprehensive knowledge in algorithms, data structures, and software development.
- Completed hands-on projects emphasizing practical application of full-stack skills.
